Bread & Butter Fund

Shareholder Letter

June 30, 2017 (Unaudited)

Dear Fellow Shareholders,

The Bread & Butter Fund returned 4.46% compared to the S&P 500 Index return of 8.24 % without dividends reinvested and 9.34% with dividends reinvested for the six month period ended June 30, 2017. The Fund is finding very few undervalued opportunities to invest that qualify in the Contrarian value strategy. Therefore, the Fund holds a meaningful cash position of 32%.

During the six month period ended June 30, 2017 the main contributors to Fund performance was Philip Morris International, 22nd Century Group, Amerisourcebergen Corp and Chipmos Technologies. The main detractors from Fund performance was General Motors Corp, AIG, and Dawson Geophysical Company. The only activity for the period was a partial sale of AIG.

The top three holdings represent 27.65% of the Fund and include Berkshire Hathaway (BRK-B), Tyson Foods (TSN) and Philip Morris International (PM). The stocks have been long term holdings as two were purchased at the depths of the 2008-2009 financial crisis. At the time of purchase, these stocks were purchased at very attractive valuations. Today, all three of the companies are priced at the upper range of valuation and are fairly priced.

Berkshire Hathaway continues its history of balance sheet strength as it has significant liquidity and a strong capital base of \$300.7 billion ready to make acquisitions and investments. The company continues to generate large amounts of cash which increases the per share value so the Fund remains invested in this formidable company.

Why does the Fund hold so much cash for an extended period of time? It is a by-product of the Fund's Contrarian value strategy and a lack of undervalued investment opportunities. Investors continue to invest in quality companies which have consistently met earning expectations and have bid them up to premium valuations making future returns unattractive. In addition, dividend aristocrat stocks have been bid up to premium valuations by investors in need of higher income. Our experience is that quality companies rarely get to deeply undervalued prices unless there is a deep market correction and or an adverse industry specific situation. On the other hand, there are some beaten down stocks that appear to be value priced, but after further analysis we find more value traps than opportunities. As stock indices continue to grind higher, the pressure to make investments grows but we remain patient. In addition, the bond market including treasuries and corporate is highly priced especially the junk bond market which is near record low spreads to treasuries.

Some Market Observations

Asset prices are high across the board and this includes stocks, bonds and real estate. Prospective asset returns are at or near historical lows. A number of indicators show historical over-valuations such as the Price Earnings ratio of the S&P 500 which is currently at 23.5 times while the median long term p/e has been about 15. The Enterprise value to Ebitda is currently around 13.5 times which is at record levels. Finally, the Wilshire 5000 to GDP ratio is currently at 149 while at 118 in early 2000.

Bread & Butter Fund
Shareholder Letter (Continued)
June 30, 2017 (Unaudited)

Many investors are embracing increased risks in order to achieve their need for higher returns and income leading to a complacency toward margin of safety. Quality companies and dividend aristocrat stocks have been bid up to overvalued prices. A number of passive ETFs have originated to include these stocks, which is contributing to the large inflows of new investment and blind buying of these overpriced stocks. In the last ten years inflows into passive index funds and ETFs has been \$1.4 trillion while \$1.2 trillion has flowed out of active funds. Index funds and ETFs now make up 37% of all fund assets. As passive investing continues to garner the majority of money blindly bidding up asset values, active funds may be able to gain an advantage offsetting the permanent low cost/expense advantage.

I will continue to focus my efforts on finding undervalued securities that offer attractive long-term returns for the Fund. Thank you for your continued confidence in the Fund and do not hesitate to contact the Fund via our website at www.breadandbutterfund.com.

Respectfully Submitted,

James Potkul
President & Chief Investment Officer

The views contained in this report are those of the Fund's portfolio manager as of June 30, 2017, and may not reflect his views on the date this report is first published or anytime thereafter. The preceding examples of specific investments are included to illustrate the Fund's investment process and strategy. There can be no assurance that such investments will remain represented in the Fund's portfolios. Holdings and allocations are subject to risks and to change. The views described herein do not constitute investment advice, are not a guarantee of future performance, and are not intended as an offer or solicitation with respect to the purchase or sale of any security.

Bread & Butter Fund

Notes to Financial Statements

June 30, 2017 (Unaudited)

NOTE 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Organization: The Bread & Butter Fund, Inc. (the "Fund"), is an open-end, no-load, non-diversified regulated investment company that was incorporated in the state of New Jersey on March 2, 2004. The Fund commenced investment operations October 31, 2005. The Fund is authorized to issue 100,000,000 shares of \$0.001 par value common stock.

The Fund's investment objective is to seek long-term capital appreciation primarily by investing in securities that Potkul Capital Management LLC (the "Adviser") believes are undervalued. The Fund is a "non-diversified" portfolio, which means it can invest in fewer securities at any one time than diversified portfolios.

The following is a summary of the significant accounting policies followed by the Fund in the preparation of its financial statements. The Fund is an investment company that follows the accounting and reporting guidance of Accounting Standards Codification Topic 946 applicable to investment companies.

Security Valuation: All investments in securities are recorded at their estimated fair value, as described in Note 4.

Foreign Currency: Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

Net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at fiscal period end, resulting from changes in exchange rates.

Federal Income Taxes: The Fund's policy is to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all its taxable income to its shareholders. The Fund also intends to distribute sufficient net investment income and net capital gains, if any, so that it will not be subject to excise tax on undistributed income and gains. Therefore, no federal income tax or excise provision is required.

Bread & Butter Fund

Notes to Financial Statements (Continued)

June 30, 2017 (Unaudited)

The Fund recognizes the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained, assuming examination by tax authorities. Management has analyzed the Fund's tax positions and concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years (2014-2016) or expected to be taken in the Fund's 2017 tax returns. The Fund identifies its major tax jurisdictions as U.S. Federal and New Jersey State, however the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next 12 months.

Distributions to Shareholders: The Fund intends to distribute to its shareholders substantially all of its net realized capital gains and net investment income, if any, at year-end. Distributions will be recorded on ex-dividend date.

Other: The Fund follows industry practice and records security transactions on the trade date. The specific identification method is used for determining gains or losses for financial statements and income tax purposes. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Discounts and premiums are amortized, over the useful lives of the respective securities. Withholding taxes on foreign dividends will be provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates.

Cash and Cash Equivalents: The Fund considers all highly liquid debt instruments having original maturities of three months or less at the date of purchase to be cash equivalents. The Fund may, during the ordinary course of business, maintain account balances with banks in excess of federally insured limits. The Fund has not experienced losses on these accounts, and management believes that the Fund is not exposed to significant risks on such accounts.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Indemnification: In the normal course of business, the Fund enters into contracts that contain general indemnifications to other parties. The Fund's maximum exposure under these contracts is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. The Fund expects the risk of loss to be remote.

Subsequent Events - Management has evaluated the impact of all subsequent events through the date the financial statements were issued and has determined that there were no subsequent events requiring recognition or disclosure in these financial statements.

Bread & Butter Fund

Notes to Financial Statements (Continued)

June 30, 2017 (Unaudited)

NOTE 2. INVESTMENT ADVISORY AGREEMENT

The Fund has an investment advisory agreement with the Adviser to furnish investment advisory and certain other management services to the Fund. The Fund will pay the Adviser a monthly fee based on the Fund's average daily net assets at the annual rate of 1.00%. The Adviser will absorb all expenses of the Fund so that the Fund's total expense ratio is equal to or less than 2.00%. The Adviser has contractually agreed through May 30, 2018 to reimburse the Fund for expenses that exceed 2.00% per year of the average total net assets of the Fund. The Fund does not consider "Acquired Fund Fees and Expenses" to be fund operating expenses subject to the 2.00% limit. The Fund will not refund the Adviser for these reimbursements. The Fund will bear its own operating expenses which will include director's fees, legal and accounting/audit fees, interest, taxes, brokerage commissions, bookkeeping and record maintenance, operating its office, registration fees, postage, printing and supplies, transfer agent and custodian fees. For the six months ended June 30, 2017, the Adviser earned \$7,384 pursuant to the advisory agreement. The Adviser waived \$7,349 in advisory fees for the six months ended June 30, 2017. At June 30, 2017, the Fund owed the Adviser \$1,244 for management fees.

James B. Potkul is the President and Chief Investment and Compliance Officer of the Fund. Mr. Potkul is also the President/Chief Investment Officer and Principal of the Adviser.

NOTE 3. INVESTMENT TRANSACTIONS

Purchases and sales of investment securities (excluding short-term securities) for the six months ended June 30, 2017 were \$0 and \$30,467, respectively.

NOTE 4. SECURITIES VALUATIONS

Processes and Structure

The Fund's Board of Directors has adopted guidelines for valuing securities including in circumstances in which market quotes are not readily available and has delegated to the Adviser the responsibility for determining fair value prices, subject to review by the Board of Directors.

Hierarchy of Fair Value Inputs

The Fund utilizes various methods to measure the fair value of most of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The three levels of inputs are as follows:

- *Level 1.* Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- *Level 2.* Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for

Bread & Butter Fund

Notes to Financial Statements (Continued)

June 30, 2017 (Unaudited)

similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates, and similar data.

- *Level 3.* Unobservable inputs for the asset or liability to the extent that relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions that a market participant would use in valuing the asset or liability, and that would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Fair Value Measurements

A description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis follows.

Equity securities (common stocks). Securities traded on a national securities exchange (or reported on the NASDAQ national market) are stated at the last reported sales price on the day of valuation. To the extent these securities are actively traded, and valuation adjustments are not applied, they are categorized in level 1 of the fair value hierarchy. Certain foreign securities may be fair valued using a pricing service that considers the correlation of the trading patterns of the foreign security to the intraday trading in the U.S. markets for investments such as American Depositary Receipts, financial futures, Exchange Traded Funds, and the movement of the certain indexes of securities based on a statistical analysis of the historical relationship and that are categorized in level 2. Preferred stock and other equities traded on inactive markets or valued by reference to similar instruments are also categorized in level 2.

The following table summarizes the inputs used to value the Fund's assets measured at fair value as of June 30, 2017:

<i>Categories</i>	Financial Instruments – Assets			
	<u><i>Level 1</i></u>	<u><i>Level 2</i></u>	<u><i>Level 3</i></u>	<u><i>Fair Value</i></u>
Common Stocks *	\$ 1,037,504	\$ -	\$ -	\$ 1,037,504
Money Market Fund	<u>239,197</u>	<u>-</u>	<u>-</u>	<u>239,197</u>
	<u>\$ 1,276,701</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,276,701</u>

* Industry classifications for these categories are detailed on the Fund's Schedule of Investments.

Bread & Butter Fund

Notes to Financial Statements (Continued)

June 30, 2017 (Unaudited)

The Fund did not hold any Level 3 assets during the six months ended June 30, 2017. The Fund did not hold any derivative instruments at any time during the six months ended June 30, 2017. There were no significant transfers into or out of Level 1 or Level 2 during the period. It is the Fund's policy to recognize transfers into and out of Level 1 and Level 2 at the end of the reporting period.

NOTE 5. CAPITAL SHARE TRANSACTIONS

As of June 30, 2017, there were 100,000,000 shares of \$0.001 per value common stock authorized. The total par value and paid-in capital totaled \$1,052,405. Transactions in capital stock were as follows for the six months ended June 30, 2017, and the year ended December 31, 2016:

	<u>June 30, 2017</u>		<u>December 31, 2016</u>	
	<u>Shares</u>	<u>Amount</u>	<u>Shares</u>	<u>Amount</u>
Shares sold	223	\$ 3,000	312	\$ 4,244
Shares reinvested	-	-	3,822	50,759
Shares redeemed	<u>(1,920)</u>	<u>(25,600)</u>	<u>(1,788)</u>	<u>(24,188)</u>
Total increase (decrease)	<u>(1,697)</u>	<u>\$ 22,600</u>	<u>2,346</u>	<u>\$ 30,815</u>

NOTE 6. TAX MATTERS

The Fund's distributable earnings on a tax basis are determined only at the end of each fiscal year. As of December 31, 2016, the Fund's most recent fiscal year-end, the components of distributable earnings on a tax basis were as follows:

Unrealized Appreciation	\$ 403,497
Undistributed Realized Gains	-
Undistributed Ordinary Income	<u>-</u>
Total Distributable Earnings, Net	<u>\$ 403,497</u>

As of December 31, 2016, the tax basis components of unrealized appreciation (depreciation) and cost of investment securities were as follows:

Gross unrealized appreciation on investment securities	\$ 415,228
Gross unrealized depreciation on investment securities	<u>(11,731)</u>
Net unrealized appreciation on investment securities	<u>\$ 403,497</u>

Tax Cost of investment securities, including short-term investments \$ 832,167

Income and long-term capital gain distributions are determined in accordance with Federal income tax regulations, which may differ from the character of net investment income or net realized gains presented in those financial statements in accordance with U.S. GAAP.

Bread & Butter Fund
Notes to Financial Statements (Continued)
June 30, 2017 (Unaudited)

The tax character of distributions paid for the six months ended June 30, 2017, and year ended December 31, 2016 were as follows:

	<u>2017</u>	<u>2016</u>
Long-term capital gain	\$ -	\$50,759

NOTE 7. CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of the fund, under Section 2(a)(9) of the Investment Company Act of 1940, as amended. As of June 30, 2017, the Potkul Family, in aggregate, owned approximately 37% of the Fund, and may be deemed to control the Fund.

NOTE 8. NEW ACCOUNTING PRONOUNCEMENT

In October 2016, the U.S. Securities and Exchange Commission (“SEC”) issued a new rule, Investment Company Reporting Modernization, which, among other provisions, amends Regulation S-X to require standardized, enhanced disclosures, particularly related to derivatives, in investment company financial statements. Compliance with the guidance is required for financial statements filed with the SEC on or after August 1, 2017. Management is currently evaluating the impact the amendments will have on the Funds’ financial statements and related disclosures.

Expense Example

As a shareholder of the Bread & Butter Fund, you incur ongoing costs which typically consist of management fees and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, January 1, 2017 through June 30, 2017.

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in this Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

	Beginning Account Value	Ending Account Value	Expenses Paid During the Period*
	<u>January 1, 2017</u>	<u>June 30, 2017</u>	<u>January 1, 2017 through June 30, 2017</u>
Actual	\$1,000.00	\$1,044.60	\$10.14
Hypothetical (5% Annual Return before expenses)	\$1,000.00	\$1,014.88	\$9.99

* Expenses are equal to the Fund's annualized expense ratio of 2.00%, multiplied by the average account value over the period, multiplied by 181/365 (to reflect the one-half year period).

APPROVAL OF INVESTMENT ADVISORY AGREEMENT

At an in-person meeting held on June 24, 2017, the Board of Directors, including a majority of Directors that are not "interested" persons of the Fund (as the term is defined in the 1940 Act), re-approved the Advisory Agreement based upon its review of the qualitative and quantitative information provided by the Investment Advisor. In reaching their determinations relating to approval of the Advisory Agreement, the Directors considered all factors they believed relevant including the following:

The nature, extent and quality of investment, and other services to be rendered by the Investment Manager; comparative fee, performance and expense data for the Fund and other investment companies with similar investment objectives; the extent to which economies of scale may be realized as the Fund grows and whether fee levels reflect these economies of scale for the benefit of investors; information about fees charged by the Investment Manager to other clients with similar investment objectives; the professional experience and qualifications of the Fund's portfolio manager; profitability of the Investment Manager; and the terms of the Advisory Agreement.

The Directors also considered their overall confidence in the integrity and competence of the Investment Manager. The Directors determined that the overall arrangements between the Fund and the Investment Manager, as provided in the Advisory Agreement, were fair and reasonable in light of the services performed, expenses expected to be incurred, and such other matters as the Directors considered relevant in the exercise of their reasonable judgment.

Nature, Extent, and Quality of Services Provided by the Investment Manager — The Directors noted that, under the Advisory Agreement, the Investment Manager, subject to the control of the Directors, administers the Fund's business and other affairs. The Directors also noted that the Investment Manager manages the investment of the assets of the Fund, including making purchases and sales of portfolio securities consistent with the Fund's investment objective and policies.

The Directors considered the scope and quality of services provided by the Investment Manager under the Advisory Agreement. The Directors considered the cyclical nature of value investing, the quality of the investment research capabilities of the Investment Manager, the other resources it dedicates to performing services for the Fund and the active management style of the Investment Manager. The Directors also considered the experience, reputation, and investment philosophy of Mr. James B. Potkul, the principal of the Investment Manager and portfolio manager of the Fund. The quality of administrative and other services also were considered.

The Directors concluded that the nature of the services provided by the Investment Manager continues to be satisfactory.

Investment Advisory Fees Paid by and Performance of the Fund — The Directors considered the advisory fee rate paid by the Fund to the Investment Manager and the performance of the Fund.

Bread & Butter Fund

Additional Information (Continued)

June 30, 2017 (Unaudited)

The Directors recognized that it is difficult to make comparisons of advisory fees because there are variations in the services that are included in the fees paid by other funds. They also recognized that when comparing the performance of the Fund to the performance of comparable funds, it is important to take factors such as size, risk management, and the age of the Fund into account. The Fund is a long term capital appreciation fund with lower than normal turnover focusing on value investments. Therefore the Directors used several funds in the value peer group as well as the S&P 500 Index for comparison purposes. The Fund performance analysis is longer term in nature using the most recent 5 year period ending December 31 and since inception October 31, 2005 through the year end of the most recent N-CSR Annual Filing December 31. The Directors concluded that the advisory fee rate, taking into account performance and the other factors mentioned above, was in line with other comparable funds. The Directors also considered that the advisory fee was at the same level as the fees charged by the Investment Manager to its other client accounts.

Possible Economies of Scale — The Directors considered whether the fee waiver was reasonable in light of the Fund’s assets size. The Directors determined that the fee waiver helps to keep Fund expenses in line with competitive funds and is reasonable.

In addition, the Directors noted that although the Fund’s contractual management fee did not include voluntary waivers. The Directors recognized that the Investment Manager has made great effort to keep cost low and waive expenses

The Directors noted that (i) the expenses paid by the Fund were customary in the mutual fund industry, and additionally, the Fund is a no-load fund and as such Fund shareholders do not pay sales charges common to other Funds and (ii) the expense ratios of some of the comparable funds were lower because of waivers or reimbursements by those funds’ investment advisers, which in some cases were voluntary and perhaps temporary and a larger asset base. The Directors concluded that the Fund’s expense ratio was satisfactory.

Investment Manager Profitability — The Directors noted that the Investment Manager provides the Fund with office space, administrative and other services as are necessary for the Fund’s operations. The Directors considered that the Investment Manager paid the total cost of the organization of the Fund (without reimbursement). It was also noted that the Investment Manager is contractually obligated to waive Fund expenses beyond 2%. The Directors considered the expenses of the Investment Manager and the services provided by the Investment Manager and determined that the Investment Manager was currently not profitable based on the expenses and relatively small asset levels of the Fund.
